

Manuscript Preparation Instructions for Conference Record [page 2 of 3]  
(submit by 10 April 1998)

■ Figures for Papers and Presentation

When producing presentation and reproduction art for the Conference Record, there are some factors to consider. For a piece of artwork to work well for 8 1/2" x 11" laser submissions, figure lines should be clean and crisp, and all type within the figure should be bold and easy to read.
