

12/5/15

Lab #0

Title of Lab

Don Johnson

Kevin Kelly

Pre-lab:

(Include pre-calculations if needed.)

12/7/15

During lab:

Objective:

(Include the objective of the lab here.)

Procedure:

Part 0.1:

1) Summarize, but do not copy, each step of the lab.

2)

If you were to complete the lab on multiple days, make sure to include the date of each individual session in a new line. This is an example of how answering an in-line question in the lab should look like.

...

n)

Part 0.2:

1) ...

n)

A Descriptive but Succinct Table Title

Figure 1: A table showing...nothing.

n+1)

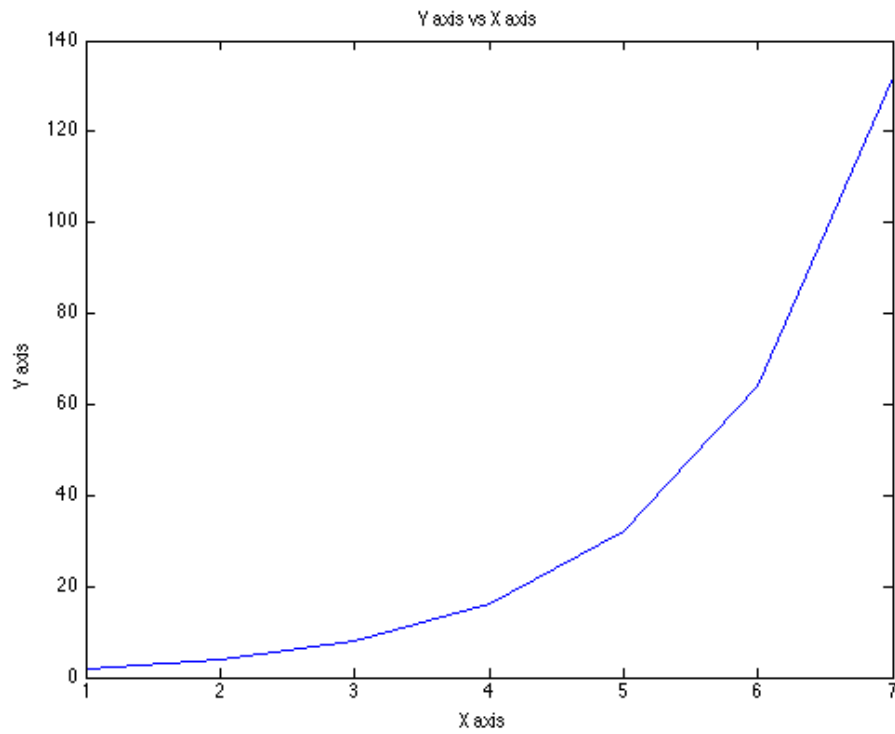

Figure 2: A graph demonstrating how to format a graph (take note of the title).

12/9/15

Post-lab:

Numbered Questions:

1) Answer each lab's numbered questions here.

2)

3)

Summary:

Include a summary of the lab, focusing on its big picture and implications, rather than minute details already discussed in the procedure.

12/10/15

Error:

Discuss potential sources of error, how these errors might be minimized, and ways that the lab could be improved.
