

QUIZ1 will consist of about 12 multiple choice and “check all that apply” type questions from the material covered up to (including) Feb 24, 2026. You will have approximately 45 minutes, starting at the beginning of class, to complete your answers. All questions will be fairly basic and simple, testing your knowledge and understanding of fundamental notions, concepts and relationships, important principles. You will not be asked to remember elaborate formulae but knowledge of basic, important simple formulae will be assumed in order to answer questions.

QUIZ1 will be in the format of Google quiz like our short quizzes in class, except with more questions. QUIZ1 is closed books, closed notes, and closed electronic devices other than your laptop or tablet that you use for answering the QUIZ1 questions. You may only use that device to answer the QUIZ 1 questions until I close the response period. You will be required to adhere to the Rice honor code.

Students who are unable to do QUIZ1 through the Google form please contact me right away so I can devise an alternative for you.

Questions, concerns? Please ask me.
